Now that 1992 has drawn to a close, we can look back on the year with mixed feelings - happy about the continuing growth of IPSC across Canada and our hosting of the first Level IV match in North America, and discouraged by the increasingly restrictive firearms legislation in Canada and the demise of Springfield Armory. Let's all wish Springfield the best in their rejuvenated form - they have always been extremely generous to us, and IPSC today would have a very different look without their support.

The success our sport is enjoying could not be realized without the never-ending efforts of a lot of people - the Section Coordinators and their Boards of Directors, our Instructors and Officials, and the folks that put on our matches. Please take a moment to let them know you appreciate what they're doing, because it often seems that they only hear from people with complaints. **And please remember that there is no area of IPSC anywhere in Canada that suffers from too many people sharing the workload!**

Elsewhere in this issue, we ask for your input as to the Role DILIGENTIA should fill, and the form it should take. This is intended to be your newsletter, so please let us know what you would like us to do with it.

World Shoot X is being held on the Bisley ranges in England from September 11-18, 1993. With the inexpensive airfares across the Atlantic, this will be your cheapest chance at a World Shoot for at least the next six years, and we are already getting lots of interest from IPSC Canada members. No idea yet on the number of slots Canada will be getting, but I recommend letting your Section Coordinator know right away if you might be interested in going. You should anticipate an entry fee in the neighbourhood of \$US 200. Further information will be sent out to the Section Coordinators as soon as it comes in.

The 1992 World Assembly of IPSC formally adopted the new "Standard" and "Modified" Divisions for competition, and full details of their parameters are included in this newsletter. Interest is already strong, and I expect will result in unprecedented growth in our sport if these new classes are

---

# REGIONAL RAMBLINGS

---

properly promoted. Let's all make sure their recognition is encouraged at every match, and then stand by to watch these new Divisions take off!

Planning is well under way for the 1993 Nationals in Ste. Antoine, just outside Moncton, New Brunswick. I have been down to conduct a Range Officer course already, and have seen the existing ranges and the improvements that will be made to accommodate this big match. Dates are August 15-21, and it looks to be one you won't want to miss. More details to follow shortly.

## LEGISLATIVE UPDATE

**The restrictions on large-capacity magazines, due to have taken effect on January 1, 1993, have been delayed by the Federal Ministry of Justice until July 1, 1993.**

This delay in implementing the magazine restrictions was introduced in response to complaints from numerous police agencies across the country that they were unable to have appropriate procedures and processes to control these magazines in place by the end of 1992.

Unless the deadline is changed again, there will be no new constraints on the ownership or use of large-capacity magazines (handgun magazines in excess of 10 rounds and rifle magazines over 5 rounds) for the first half of 1993.

Bill C-17 provides that an exemption from the prescribed magazine capacity restrictions may be granted for legitimate competitors in any sport specifically approved by the Solicitor General of each Province. IPSC Canada has been pointing out to the Minister of Justice that such Provincial interpretation of Federal legislation will only perpetuate the confusion and inconsistency that are characteristic of the firearms control process in Canada today. It is our understanding that Federal officials will be using this six-month delay in implementation to try and develop some degree of uniformity among the Provinces in the matter of large-capacity magazine exemptions for legitimate competitive shooters.

Executives of IPSC Canada and the Sections have been meeting extensively with the Chief Provincial Firearms Officers in each province to establish IPSC as a legitimate sporting discipline with an established need for large-capacity magazines in competition, and to secure for you the necessary exemptions. Most jurisdictions are quite ready to designate IPSC as an approved sporting body, although the Province of Quebec is adopting the position that it will not grant large-capacity magazine exemptions to anyone living in that Province. We are hoping to negotiate some movement in this position before the restrictions go into effect.

---

# REGIONAL RAMBLINGS

---

We will keep you fully informed as the situation concerning large-capacity magazines develops further. As long as the decisions remain in the hands of Provincial officials, your Section Coordinator will be your best source of up-to-date information on the status in your jurisdiction.

## DECISIONS OF THE 1992 WORLD ASSEMBLY

The following is a summary of the significant decisions made at the 1992 World Assembly of the International Practical Shooting Confederation, held in Barcelona, Spain in conjunction with this year's European Championships.

1. **In what I believe to be the most important move of the meeting, the Assembly approved the following three Divisions of competition, to take effect January 1, 1993 for a trial period of three years:**

**Open Division:** Any handgun complying with the existing IPSC rules. No changes to gun, leather or ammunition from that presently allowed.

**Modified Division:** Any handgun, unloaded and in its ready condition as per Rule 8.01 and, in the case of self-loaders, with an empty magazine installed, that fits within the confines of a box with the following dimensions:

Length:	225 mm
Width:	150 mm
Depth:	45 mm

A manufacturing tolerance of up to 1 mm extra length is allowed on each of these dimensions.

All magazines intended for use during the competition must comply when installed in the handgun.

**Standard Division:** Any complete handgun, produced by the factory in quantities of at least 500 per year, and allowing minor modifications (sights, beavertails, safeties, magazine wells, replacement barrels, etc.) but no compensators, ports or optics. Minimum calibre remains at 9 mm parabellum.

---

# REGIONAL RAMBLINGS

---

## Additional restrictions for "Standard" and "Modified" Divisions:

**Leather gear:** Any leather gear is permitted as long as it is safe, worn behind the hip bone, has a maximum distance of 25 mm between the body and the butt of the gun, and complies with all other holster rules.

**Ammunition:** Power factors remain as presently established, but "major" factor will require a bullet diameter of not less than 10 mm (.40 calibre), with the exception of the .357 Magnum cartridge.

Future Assemblies have been left the option of approving cartridges other than the .357 Magnum for "major" use in Standard and Modified Divisions if they become commercially available and if those Assemblies are satisfied that they do not produce unsafe pressures in the shorter guns.

## Recognition of Divisions:

Overall match results will continue to rank all competitors on the basis of overall performance, without any ranking by Division.

Separate and additional results will be produced - one set showing only the "Modified" competitors, with scores expressed as a percentage of the highest-ranking competitor in that Division, and another showing exactly the same thing for "Standard".

Level IV and V matches must recognize any Division in which at least 5% of the total competitors are registered, and Level III matches are encouraged to recognize on that same basis.

There shall be a Match Winner and a winner in each recognized Division.

There shall be only one National Team entered by each competing Region, and each Region is free to make up its Team with whatever combination of "Open", "Modified" and "Standard" shooters it thinks best.

---

# REGIONAL RAMBLINGS

---

2. **Effective January 1, 1993, Rule 7.05 will be changed to allow for longer magazines in "Open" Division only.**

Magazines will be permitted that do not exceed 170 mm at their longest dimension, including any bumpers, pads or accessories that are attached.

3. **The United States motion to change Rule 8.10 was soundly defeated, and match disqualification remains the automatic penalty for any instance of movement with the finger in the trigger guard.**

4. **The 2/3 scale pepper popper developed by the United States and tested by several Regions last year was accepted as an official IPSC target.**

Match organizers are encouraged to use these reduced-size pepper poppers only when range limitations prevent the moving of full size poppers out to desired distances, and not to use them indiscriminately in normal situations.

5. **The International Level IV and V competition schedule for the next "cycle" was established as follows:**

**1993:** "Thunder Down Under" Level IV 3-gun match is scheduled for March 2-10 in New Zealand. Lack of entries may well force cancellation, and a final decision is expected in November.

World Shoot X will be held at the Bisley ranges in England. Dates are September 11-18.

**1994:** South American Championship in Argentina in October.

**1995:** North American Championship sometime during the summer. The United States Region has first right of refusal and, if they decline, the match will be offered to Canada.

European Championship in Sweden. Dates to be confirmed.

---

# REGIONAL RAMBLINGS

---

1996: World Shoot XI in Zimbabwe. Dates to be confirmed, but South Africa will host a 20th Anniversary match immediately prior to the World Shoot to permit two major matches while in Africa. The 20th Anniversary match is intended to involve the guns, gear and courses of fire from the 1976 Columbia Conference where IPSC was founded.

6. **Definitive acceptance as a Region was granted to Peru after its one-year provisional period, while final acceptance of Jamaica and Guatemala was deferred pending receipt of more information on the status of the sport in those countries.**

Provisional acceptance for one year was granted to Costa Rica, Czechoslovakia and Portugal.

7. **I have been appointed to the Executive Council of IPSC with responsibility for the approval of all courses of fire for Level III, IV and V matches worldwide.**

It is my intention to finalize the course design seminar that I have already offered in Canada, incorporate it into a Course Design Manual to be distributed to all Regions, and try to raise course design standards to Canadian levels throughout most of our Confederation.

That pretty well covers everything of substance that transpired in Barcelona. There were the usual housekeeping matters, of course, but nothing of particular concern.

## THE ROLE OF A NATIONAL NEWSLETTER FOR IPSC CANADA

Although the Constitution of IPSC Canada dictates that **DILIGENTIA** be published on a bi-monthly basis, you are aware that it has been coming out much less frequently than that, and the reason has been a lack of content. With a cost of over \$2,500 per issue for publication and mailing, I do not think any of our members want to see a portion of their fees wasted to produce an uninformative newsletter just to satisfy a pre-determined schedule.

---

# REGIONAL RAMBLINGS

---

We need to know what role you, the members, would like **DILIGENTIA** to fill:

**How frequently should it be published?**

**What types of material should it contain?**

**To what extent should it supplement or duplicate information already circulated in your Section newsletter?**

It is a fact that "National" and "International" IPSC news are insufficient in themselves to warrant even quarterly publication, even if we include International competition calendars, decisions of World Assemblies and both courses of fire and results for the Canadian Nationals and the Great Canadian Postal Match.

This is your newsletter! We want it to be informative and useful to you whenever it is published, and we want that to be as often as necessary to meet your needs!

Please let myself and your Section Coordinator know what you think. If you see **DILIGENTIA** as being a vehicle for distributing lots of information, please give us some suggestion of what that material should be and how we can accumulate it for editing. If you see no specific purpose for a national newsletter, should we abandon any attempt to put it out on a scheduled basis and instead issue it only irregularly whenever content warrants?

We would much rather you hold on to that portion of your membership fee that is allocated to **DILIGENTIA** than spend it producing a newsletter that does absolutely nothing for you.

**Thanks for your input!**

## 1992 NORTH AMERICAN CHAMPIONSHIP & CANADIAN NATIONALS

IPSC Canada hosted the first Level IV Match ever held in North America this past summer, combining the 1992 North American Championship and the 1992 Canadian Nationals into one exciting week of shooting. Held at the Sharon Gun Club, just outside Toronto, the match enjoyed perfect weather - the first week of Toronto's summer that didn't have at least three days of rain.

### **THOSE WHO MADE IT HAPPEN**

This Championship was designed and organized by a Match Committee of only 8 people, and if ever a Match Director had his choice of who to work with, he would pick exactly this same bunch:

**Nick Alexakos**

**Russell Bryan**

**Ian Fachie**

**Barbara Tuntoglu**

**Don Broomfield**

**Lynn Coughlin**

**Gerhard Schmitt**

(Thanks for everything - all those meetings, trying to get paint to dry in the pouring rain, wondering where the other 700+ members of IPSC Ontario were hiding and, most of all, for putting up with the Match Director)

Our Range Master and Chief Range Officers were all personnel from the International Range Officers Association. They came from six different Regions to help put on this Match, and we worked them so hard that most of them saw nothing of Toronto except the road between the hotel and the Club. A special thanks to Dave Arnold, Ian Butler, Kerry Miller, Hans Witte, Ian Caldwell, Patrick Morin, Tom Hampe, Linda Gilbertson, Victor Ferrero and Seth Nadel - next time we promise you at least a few hours off.

Officials from NROI Canada did the bulk of the range work, and re-confirmed the opinion that Canada's Officials are second to none. Thanks to all our Range Officers, including the New Brunswick Team who all took full turns on the range. Trust the experience was worth it.

And while we can't begin to acknowledge everybody who contributed, several other people do come to mind as having handled more than their share of the load - Noni Raitblat, Kent Hill, Neil Hislop, Denny Galli, Tim Everett and Laura Stewart. If your name hasn't been mentioned, please don't think that your efforts were not appreciated - it's just that the Match Director's memory is not what it used to be.

---

# NORTH AMERICAN CHAMPIONSHIP

---

## THE WINNERS

When the smoke cleared and the noise died down, nobody was surprised to see Jerry Barnhart come out on top, with Doug Koenig and Rob Leatham close behind. All these fellas had been shooting consistently well all week.

Top Canadian was Steve Johns from Regina, edging out British Columbia's Murray Gardner by less than a full match point, which was phenomenally close when you consider that each of them fired over 300 rounds during the course of the competition.

Kay Clark Miculek won the North American ladies title quite handily, with Kerry Lathwell emerging (again!) as the Top Lady in Canada.

North American Stock Gun Champion is Miami police officer Armando Valdes, while Ken Bell of Calgary took Canadian Stock Gun honours.

The United States Team cleaned up in the Team standings, but IPSC Ontario finally emerged as the Top Team in Canada.

Full match results are reproduced in this issue.

## OUR SPONSORS

As you can all appreciate, an event of this magnitude would be absolutely impossible without the generosity of corporate sponsors, and we were lucky enough to have some of the best:

**American Handgunner**

**North American Championship Match Sponsor**

**Springfield Armory**

**Canadian Nationals Match Sponsor**

A tremendous **Thank You** to all those companies and individuals who donated prizes, materials and services, without which the match would not have been what it was!

Everyone involved in the 1992 North American Championship and Canadian Nationals can be extremely proud of the Match. It continued the outstanding tradition of the IPSC Continental Championship series, begun in Ecuador in 1991 and continued in Spain later in 1992, and IPSC Canada is glad to have been a part of this program.

# BRITISH COLUMBIA

---

Our shooting season has finally come to an end, and 1992 has been a very good year both locally and across the country. Attendance was up significantly at all our Qualifiers, and we had our largest Provincial Championship ever. Competitors from Saskatchewan, Alberta and the United States made it easily our best and most contested Provincials in memory.

Congratulations are in order for Steve Johns, our new Canadian Champion, and to Team Ontario for winning the Team Championship. Many thanks should be given to all the people who helped to put on the first ever North American Championship, with special thanks to Lorne Rowe for all the hours of work that went in to making an event of this size such a success. While I had a great time and enjoyed shooting this match, I do feel that more emphasis should have been placed on the Canadian Nationals aspect of the competition.

The National Executive Council convened two meetings while in Toronto and passed numerous motions, the most controversial being a decision to require a minimum level of competitive activity as a condition of membership. British Columbia fully supports this concept, and I cannot find any reason for members to object to a policy that demonstrates to our Federal government that IPSC is a responsible organization. Each Section may implement this motion in a way that is acceptable to its members, but arguments of over-subscribed matches, too little time, and too much of an expense are ludicrous. IPSC is a competitive organization, and people not wanting to compete should not be involved.

I believe that the World Assembly has taken a regressive step in allowing extended magazines in "Open" Division competition, and has complicated things unnecessarily by introducing the "Standard" and "Modified" Divisions. These motions and the "box" they came in should be buried like an old bone.

The British Columbia Section wishes each and every one of you a very happy Holiday Season, and we look forward to shooting with you in the New Year!

DVC,

Randy Fisher  
BC Section Coordinator

---

# ALBERTA

---

The past twelve months have proven to be very successful for the Alberta Section:

Membership has increased to over 150, and should reach 175 by the end of the year.

Qualifier matches now number 10 per year, plus the Provincial Championships, and we are seeing an ever-increasing number of other matches to supplement these.

Rifle and shotgun events are being incorporated into more and more of our outdoor competitions.

Course design has progressed to rank with the best in the country, and has been a major factor behind the growing interest in our matches.

Alberta has enjoyed good response to the introduction of Stock Class, and we believe that, once this Class is officially recognized worldwide, it will be a source of many new shooters.

The 1992 Alberta Champion is Ivan Runions, with the Top Ten in the Province as follows:

- |                 |                   |
|-----------------|-------------------|
| 1. Ivan Runions | 2. Darrell Wilks  |
| 3. Ken Kupsch   | 4. Todd Hullock   |
| 5. Greg Maclean | 6. Dave Oldford   |
| 7. Peter Dare   | 8. Rich Berndt    |
| 9. Mike Gryba   | 10. Ted Pritchett |

A high point for Alberta shooters has been competing against the British Columbia Section in 1992 (Particularly because we're ahead, at least so far!)

The Alberta Section has also been working hard to draw up guidelines for a National Classification System for IPSC Canada, and will present them to the National Executive Council for approval and implementation. More details when they are finalized!

Our congratulations to Lorne Rowe, IROA, and the Ontario group that put on the successful 1992 Canadian Nationals and North American Championship. A difficult job handled well!

---

# MANITOBA

---

IPSC has made an astonishing resurrection in rural Manitoba in 1992!

At black badge courses in Winnipeg, Northern and Western Manitoba, our Instructors have trained almost 100 new shooters throughout the Province, and many of them already have their Novice Match behind them and are now full-fledged competitors.

We are particularly pleased to welcome the shooters from Brandon back to the IPSC fold, and in far greater numbers than before their split with the Section a number of years ago. As a measure of their enthusiasm, Brandon offered us their Wildlife and Pistol and Rifle Association ranges to host our 1992 Provincial Championship after the only available outdoor range in Winnipeg announced a conflicting match on our scheduled dates. The match organizers did a fantastic job of rearranging their courses of fire at the last minute to fit on the Brandon ranges, and the Provincials were a tremendous success.

IPSC Manitoba is making concerted efforts to get more law enforcement officers involved in our sport. Along with introducing a Top Law Enforcement trophy, we are arranging special introductory courses to stimulate interest among the various police agencies. We have already qualified a member of the RCMP Emergency Response Team, and hope this will lead to more police officers shooting with us on a regular basis in the future.

After a number of years at the helm of IPSC Manitoba, Bryan DeWet has resigned as Section Coordinator and turned the reins over to a very Dave Strachan. Dave and the other members of the Executive thank Bryan for his extensive efforts in the past, and hope that he'll remain active as a competitor for many years to come.

---

# NEW BRUNSWICK

---

We have had an active IPSC year in New Brunswick, with 56 new shooters graduating from Black Badge courses, 10 members going through a Range Officer course, and 4 getting started on their Chief Range Officer program. Membership in IPSC New Brunswick now stands at approximately 120.

Our Annual General Meeting in August saw 1992 Provincial Champion Jon Gould elected Section Coordinator, with a nine-person Executive chosen to help him run the Section.

We are looking forward to a busy year in 1993. IPSC New Brunswick is hosting the 1993 Canadian Nationals in Moncton from August 15-21, and we also have ambitious shooting programs within the Province. Both our Winter and Summer schedules are reproduced here, and we are always glad to accommodate any IPSC Canada members from elsewhere in the country who happen to be in New Brunswick on business or pleasure trips.

## Winter Schedule:

CFB Gagetown		Charlotte County
Ian Oakley (506) 357-8523		Tim Hanlon (506) 755-3959
January 21	February 24	January 16
March 14	April 4	February 13
April 25		March 6

## Summer Schedule:

May 8	Charlotte County	Tim Hanlon	755-3959
May 22	Moncton	Bill Donovan	
May 29	Blue Mountain	Gordon Whitman	468-2919
June 12	CFB Gagetown	Ian Oakley	
June 26	Grand Falls	Norman Michaud	473-4054
July 3	Welsford	Brian Crawford	
July 10/11	Saint John (NB Provincials)	Jon Gould	652-6712
July 24	Fulton	Steven Stewart	459-3291
July 31	Charlotte County	Tim Hanlon	
Aug 15/21	St. Antoine (Moncton)	Rick Lavoie	357-2306
Aug 29	Welsford	Brian Crawford	
September	Saint John Open	Jon Gould	
Oct 9	Restigouche	Chris Kingston	684-2810
Oct 17	Hampton	Austin MacPhee	832-4033

---

# NORTHWEST TERRITORIES

---

The 1992 Summer shooting season was quite active in the Northwest Territories.

Several Black Badge courses were held in Yellowknife, and Rick Clements came up from Edmonton to conduct an RO/CRO course. Our Territorial Championships in July were well attended, with approximately 75% of our members competing and guests being on hand from both Alberta and Saskatchewan. Two "3-gun" matches held this summer proved extremely popular, and we plan to put on several more next year.

Our winter season is been slow so far, but we expect it to pick up a bit when we get back indoors in January. While not very large, our indoor facility does permit us to run small competitions and to keep from getting too rusty when the daylight hours are so short.

We'll have a list of 1993 match dates available for the next issue of DILIGENTIA, and would welcome any members that may be in the area to come out and join us!

DVC,

NWT Section Coordinator

# NOVA SCOTIA

---

IPSC Nova Scotia has enjoyed an active season in 1992.

Our Provincial Championships were as successful as always, and Jim Fraser has retained his Provincial Champion crown for another year. The final standings in the Provincials are reproduced below.

The Yarmouth Open was held again in 1992, after a one-year interruption, and 33 competitors each fired over 250 rounds in the two-day match. Jon Gould of New Brunswick was the Match Winner.

The 1992 Canadian Nationals and North American Championship saw a full Team and a record turnout of Nova Scotia shooters. We all had a great time and brought back lots of ideas to enhance future matches in the Maritimes. Shooting alongside native Nova Scotian Matt McLearn was a terrific (and sometimes humiliating) experience - looks like we did a good job of teaching that boy when we had him here.

## 1992 Nova Scotia Provincial Championships

1.	Jim Fraser	100.0	2.	Jon Gould	84.1
3.	Cliff Meek	84.0	4.	Richard Turner	79.8
5.	Pierre Lebrasseur	76.5	6.	John Tapper	76.1
7.	Richard Thibodeau	74.0	8.	Bernie Nickerson	70.4
9.	Laurie McNeil	69.4	10.	Rick Irwin	69.2
11.	Allan King	69.1	12.	Steven Stewart	67.6
13.	Rod Regier	67.1	14.	Brian Graves	64.5
15.	Tom Demille	63.6	16.	Allan Graves	61.6
17.	Darryl Goodwin	60.6	18.	Sean Hansen	60.3
19.	Adrien Robichaud	59.8	20.	Lauchie Armstrong	59.3
21.	James Story	59.1	22.	Robert Joseph	57.7
23.	Tim Hanlon	57.1	24.	Bruce Inglis	57.1
25.	Gary Wood	55.6	26.	Kevin MacMaster	52.5
27.	Steve Armstrong	47.0	28.	Rick Young	46.5
29.	Phil Whyntott	46.5	30.	Troy Stewart	43.1
31.	Charlie Boran	42.0	32.	Roland Beaman	40.2
33.	Bruce Dean	38.9	34.	Ron Maine	35.3
35.	Andrew MacVicar	27.8	DQ	Gary MacKenzie	

---

# ONTARIO

---

It has been a busy summer here in Ontario. In late June, we held our Provincial Championships at the Lower Trent Valley Club in Trenton. Our Provincial Champion, for the sixth time, is Bryan Marino, and the following shooters round out the Top Ten in Ontario for 1992:

2. Mike Lao
3. Don Brush
4. Jamie Armour
5. Minos Lam
6. Bill Boychuk
7. Wolf Hoffman
8. Stephen Russell
9. Jose Villaneuva
10. Dave Muir

In mid-August, the 1992 Canadian Nationals and North American Championship Level IV Match was held at the Sharon Gun Club, north of Toronto. It was good to see everyone from the other Sections again. 251 competitors from 12 countries attended this match, the first IPSC level IV match ever held in North America.

On behalf of the members, the Board of IPSC Ontario extends a heartfelt "thank you" to Lorne Rowe and his team who were responsible for masterminding this excellent competition, and to the Sharon Gun Club members who worked above and beyond the call of duty. The match was a very definite challenge to all competitors. Many of our members enjoyed working and exchanging views with the IROA officials from other countries.

At this year's Nationals, the Ontario Team won, for the first time ever, the APSA (Alberta Practical Shooting Association) Cup which is awarded to the Provincial Team accumulating the most points. The Cup dates from 1980, when it was first seen at the Canadian Practical Shooting Championship and won by the team from British Columbia. For the following eight years, BC kept winning "Top Team" honours, but finally relinquished the cup in 1989 when it went home to Alberta. It stayed in Alberta until 1991 when Saskatchewan won it, and now it's here in Ontario! Congratulations Team Ontario! Our Team members were Jamie Armour, Don Brush, Wolf Hoffman, Mike Lao, Bryan Marino and Jose Villaneuva.

After the Canadian Nationals, Ontario and the Sharon Gun Club had three weeks of relative peace before the Level 3 Sharon Open match started. The Sharon and Ontario members are expecting an easier year or two while they recover a bit and look forward to going to New Brunswick for the Nationals next year.

---

# ONTARIO

---

During this short recess, some of our Ontario IROA personnel found time to hop over to Spain to officiate at the 1992 European Championship. This group consisted of Nick Alexakos, Lorne Rowe, Dino Evangelinos, Don Broomfield and Nicole Pigeon, who all worked under difficult conditions to help make that match a success. As a result of a vote taken by the organizers of the European Championships, IROA Stats Officer Nicole Pigeon and her European helper were awarded Tanfoglio Ultra pistols for their contributions and hard work at that match.

Lorne Rowe, Canadian Regional Director, was recently appointed to the Executive Committee of IPSC at the World level, with responsibility for the approval of courses of fire for all Level III, IV and V matches worldwide. Dino Evangelinos, Vice President of IPSC Ontario was recently appointed an Executive Director of IROA.

As for the ordinary everyday stuff in Ontario, we cannot forget our Instructors who are working hard and training a lot of new members. We expect our membership may go over 900 by the end of this year, including the renewals from members who have been idle for the past few years.

There has been a lot of interest expressed in the National Classification System for IPSC Canada, and we look forward to participating in the National rankings.

We are updating our provincial training manual and will soon incorporate part of it in the official NTO manual.

During the coming months and into next year, those of our instructors who have not already done so will be required to successfully complete the NTO exam in order to retain their status.

DVC

Janet Marino  
Section Coordinator

---

# QUEBEC

---

Nous sommes certainement une société distincte, les tireurs le sont.

Les anti-gun continuent à creuser un faussé dans les rangs de la communauté de tireurs sportifs. Ici au Québec, le Ministre de la sécurité publique a signé une nouvelle législation concernant les clubs de tir extérieur. Ces mesures draconiennes seront effectives en janvier 1994 et pourraient mettre fin au IPSC et au tir d'action au Québec étant donné qu'il n'est permis de tirer que d'un endroit où le ciel est visible. En se moment, le club extérieur ayant les plus belles installations est fermé et il semble que les responsables de ce club devront se plier aux nouvelles normes avant la date prévue pour pouvoir rouvrir.

Juste au cas ou vous seriez contant de ne pas vivre ou tirer au Québec, nous savons de bonne source que les responsables du reste du Canada suivent le cheminement des normes du Québec. Ceux-ci désirent baser leurs normes sur celles produites au Québec.

Allez tirer mais n'oubliez pas que vous devez continuer à envoyer des lettres à vos représentants politiques. Le nouveau projet de loi C-17 flotte toujours dans l'air. Vos quelques mots peuvent aider à faire tomber les choses du bon côté de la clôture.

We certainly are a distinct society, shooters that is.

The anti-gunners continue to cut a path through the ranks of the recreational firearms community. Here in Quebec the minister of public security has signed new regulations pertaining to the set up and operation of outdoor ranges. These draconian measures will come into force in January 1994 and will all but put an end to outdoor IPSC and Action shooting in the province as no firing will be allowed from any point where the sky is visible. At this moment the best outdoor facility in the province is closed and it seems that it will be forced to comply with these new rules ahead of time in order to reopen.

Just in case your feeling glad you don't live and/or shoot in Quebec, we have it on good authority that the powers that be in the rest of the country are going to follow suit with regards to outdoor range norms and will be basing their's on the ones produced by Quebec.

Get out and shoot but get out your pencils and write also. The new regulations regarding C-17 are still up in the air. Your chicken scratches may just help things land on the proper side of the fence.

DVC

Dave Young, Quebec Section Coordinator

---

# SASKATCHEWAN

---

The 1992 shooting season has ended in fine form for Saskatchewan. With the help of several new people involved in training and match organization, we were able to set new records in several areas. We have introduced more members than ever before, graduated a record number of black badge shooters, and have seen an all-time high in match attendance. **Thanks to everybody for making it happen!**

Our 1992 Provincial Championships were held in Saskatoon for the first time. The Match Committee of Grant Gresty, Jim Schille and Lorne Davis did an outstanding job of providing a first-class competition and a prize table that exceeded anyone's expectations. The Match Committee and Stats personnel Gayleen Creelman and Pete Nazarewicz deserve the thanks of all of us.

Match results were as follows:

Saskatchewan Champion	Brad Hertz
1st A	Bob Whitely
1st B	Rob Lockard
1st C	Grant Gresty
1st D	Darcy Klien
Top Lady	Sue Balzar
Top Stock Gun	Dan Matheson
Top Novice	Tom Gresty

The 1992 Doug Fyke Memorial Match was shot by almost 70% of our members, plus several unruly individuals from the Province to the west, and Brad Hertz came up the winner for the second time. Thanks to Ron Balzar and Tony Powaschuk for setting up the match, and to the RCMP for again letting us use their range.

Two years ago, SPSA started compiling stats on our members based on their performance throughout the year. Points are awarded for placement in stages, class, and match overall, and the most consistent shooter wins the Saskatchewan Cup. Brad Hertz won in 1991 and Steve Johns took the trophy this year. Stewart Biech was runner-up in 1992.

On behalf of the Saskatchewan shooters who attended the 1992 Canadian Nationals and North American Championship, I would like to extend our thanks to the Match Committee for a match that was second to none. From props to prizes, the match was superb, and we appreciate the tremendous effort you put in just so the rest of us could have a great time. Thanks, Toronto!

Steve Johns, Section Coordinator

---

## NROI ASKS YOU ?

In the future, the NROI will present a new chronicle called "NROI ASKS YOU". This chronicle is made to test your knowledge of IPSC rules, and will discuss hypothetical and/or real situations. Try to solve those situations and look at the end of the page to see if you are right.

**Today, our first situation takes place at the first Intergalactic Championship held on the moon.**

Fred First, after the command "Load and make ready" follows safe procedure with his finger out of the trigger guard . He lets the slide go forward to chamber the first round. Suddenly Bang!, a shot goes off striking the ground within three meters.

You as RO/CRO saw the trigger finger out of the trigger guard. What action will you take?

**For the second situation, our shooter is in a standard club match.**

Sally Second, after the command "Load and make ready" does not fully seated his mag.

As RO/CRO what do you do?

**Our third and last situation takes place in Quebec, during a nice sunny Sunday in July.**

Thomas Third, is caught loading his mag in the Safety Area.

As RO/CRO what action do you take?

---

# N.R.O.I.

---

ANSWERS:

**First situation.**

According with rule 12.02 "ACCIDENTAL DISCHARGE";

An accidental discharge will be defined as any shot fired outside of the backstop or striking the ground within three meters of the competitor or in any other direction deemed unsafe by the host organisation and specified as such in the competitor information.

The shooter is disqualified from the match.

But, it is said in paragraph (ii) that; When it can be established that the cause of the discharge is due to the actual breakage of part of the firearm and the competitor has fulfilled all normal safety requirements adequately, e.g. unloading and showing clear, match disqualification will not be invoked. No score will stand for that stage and no reshoot will be given. See 11.09., 9.23.

The competitor may appeal to prove that it wasn't is fault and finish the match.

**Second situation.**

Some official before giving the command "Stand By", repeat "Are you ready" then proceed with the rest of the commands. By doing so the official does not inform the competitor. But, it is better not to interfere at all. Even if the goal is to assist the competitor you could cause a prejudice to other competitors who would not have understood you signal or would not be use to that procedure. As long as safety is not involved it is the competitor responsibility to make sure everything is ready.

**Third situation.**

In this case the shooter has been caught in the safety area loading his mags. You will give him a warning. If he is caught a second time he should be disqualified for unsportmanlike behaviour because he has failed to follow direct instructions.

---

# N.R.O.I.

---

## **NROI VOUS DEMANDE ?**

Dans le futur, le NROI présentera une nouvelle chronique intitulée NROI vous demande. Cette chronique a pour objet de tester vos connaissances des règlements IPSC et discutera de situations hypothétiques ou déjà vécues. Répondez aux situations vous même et vérifiez vos conclusions avec celles énoncées à la fin de l'article.

**Aujourd'hui, notre première situation se passe lors du premier championnat intergalactique tenu sur la lune.**

Fred First, suite au commandement "Load and make ready" suit une procédure tout à fait sécuritaire. Le doigt en dehors du pontet il relâche la culasse pour chamber la première balle. Soudain bang!, le coup part en dedans de 3 mètres.

Vous, en tant que RO/CRO avez vu avec certitude que le tireur avait le doigt hors du pontet. Quelle sera votre action?

**Notre deuxième situation se passe lors d'une compétition régionale.**

Sally Second, suite au commandement "Load and make ready" ne siège pas son chargeur complètement.

Vous, en tant que RO/CRO avez remarquez l'anomalie. Que faites-vous?

**Notre troisième et dernière situation se déroule au Québec par un beau dimanche du mois de juillet.**

Thomas Third est surpris dans la zone de sécurité en train de remplir ses chargeurs.

Vous, en tant que RO /CRO, quelle action devriez -vous prendre?

---

# N.R.O.I.

---

## Réponses:

### **Situation numéros un.**

Selon l'article 12.02 du livre de règlement "Décharge accidentelle";

Une décharge accidentelle sera définie comme tout coup tiré en dehors des limites de la butte de tir ou frappant le sol à moins de trois mètres du compétiteur ou dans tout autre direction considérée comme dangereuse par les organisateurs et ainsi spécifiée dans les informations données au compétiteur.

Le compétiteur sera disqualifier de la compétition.

Cependant, en se rapportant au paragraphe (ii) du même article; Quand il pourra être établi que la cause de la décharge est due au bris d'une pièce de l'arme et que le compétiteur a rempli toutes les exigences normales de sécurité, par exemple décharger et montrer l'arme assurée, la disqualification ne sera pas prononcée. Aucun score ne sera enregistré pour ce parcours et aucun tir de remplacement ne sera donné. (Voir 11.09 et 9.23).

Le compétiteur pourra faire la preuve de son innocence et ainsi reprendre la compétition.

### **Situation numéros deux.**

Certain officiels avant de donné le commandement "Stand By" répète "Are You Ready" puis continuent avec le reste des commandements. De cette façon l'officiel n'informe pas directement le compétiteur. Cependant, il est préférable de ne pas intervenir. Même si le but visé par cette démarche est simplement d'assisté le compétiteur elle pourrait causé préjudice à d'autres tireurs qui n'auraient pas compris le sous entendu ou qui ne seraient pas habitués avec une telle procédure. Tant que la sécurité n'est pas compromise il est de la responsabilité du tireur à voir que tout est correct.

### **Situation numéros trois.**

Dans le cas d'un tireur pris en train de manipuler des munitions dans la zone de sécurité, celui-ci recevra un avertissement. Si il devait être surpris à nouveau dans se cas il serait disqualifier de la compétition pour conduite anti sportive n'ayant pas tenu compte de l'avertissement qui lui avait été donné.

La traduction des points de règlement ci-haut mentionner est l'oeuvre de la Fédération Française de Tir. Règlement sportif du parcours de tir 10ème Édition.

### THE UNIQUE HI-TECH FEATURES & BENEFITS

- **NEW DUAL POSITION (LOCK MODE/RACE MODE) TRIGGER GUARD HOLSTER SYSTEM.** SIMPLY THE FASTEST AND SAFEST HOLSTER IN THE WORLD! THE JET HAS THE ONLY DUAL POSITION (LOCK MODE/RACE MODE) TRIGGER GUARD HOLSTER SYSTEM WITH A 100% TRIGGER GUARD PROTECTION AT ALL TIMES. LOCK MODE PROVIDES 100% FIREARM RETENTION, FINALLY GIVING THE SHOOTER PEACE OF MIND THAT THEIR RACEGUN WILL NOT FALL OUT OF THE HOLSTER, YET STILL, ALLOWING FOR A COMPETITIVE DRAW. FOR AN AWESOME QUICK RELEASE, RACE MODE (ALSO RETENTION SAFE) IS THE FASTEST AND MOST COMMON START POSITION. RACE MODE MAKES THE JET 2/10ths OF A SECOND FASTER THAN ANY OTHER HOLSTER!
- **ULTRALIGHT** PLASTIC COMPOSITE CONSTRUCTION!
- **THE HOLSTER SPINE** A REVOLUTIONARY NEW CONCEPT IN HOLSTER CONSTRUCTION TECHNOLOGY. THIS NEW HOLSTER SPINE — A PLASTIC EXTRUSION RUNNING THE ENTIRE LENGTH OF THE BACK OF THE HOLSTER, IS LITERALLY THE BACKBONE OF THE JET. IT'S THIS NEW INTEGRAL STRUCTURE WHICH HAS ALLOWED ALL THE OTHER FEATURES TO COME TOGETHER TO PRODUCE THE ULTIMATE RACE HOLSTER.

- **ULTIMATE ADJUSTABILITY** THE HOLSTER CAN BE ADJUSTED UP AND DOWN AND CAN BE ROTATED FOR PROPER ALIGNMENT TO TARGET — HOLSTER ANGLE IS OBTAINED BY POSITIONING HOLSTER TO VELCRO BELTS (MODEL 112VB & 134VB). FOR THE FIRST TIME, A SHOOTER CAN POSITION THEIR HOLSTER EXACTLY WHERE THEY WANT IT!

- **UNIQUE QUICK ON AND OFF BELT FENDER DESIGN** ELIMINATING THE CURRENT HASSLE OF PUTTING THE BELT THROUGH THE HOLSTER. A PROBLEM ALL SHOOTERS CAN RELATE TO, THEY WILL NOW APPRECIATE THIS NEW SPEED MOUNTING DESIGN.

- **SLEEK, RADICAL HOLSTER BODY DESIGN** FITS BOTH RADICALLY SCOPED RACE-GUNS AND UNSCOPED STOCK FIREARMS. ALSO MINIMIZES HOLSTER/GUN CONTACT, PROTECTING THE FINISH OF THE RACEGUN! THESE FEATURES ARE DEMANDED AND NEEDED BY BOTH DEALER AND SHOOTER.

- **HOLSTER SHELL** DURABLE AND FRICTION FREE FOR SPEED! UNIQUE LAMINATE OF HIGH QUALITY LEATHER ON THE OUTSIDE, AND A NEW HI-TECH BLACK NYLON MATERIAL ON THE INSIDE PROVIDES THE FLEXIBILITY FOR GOING PRONE.

# WORLD CLASS PISTOLS INC.

**WCPI, the builder of Doug Koenig's World Championship winning P9 is now offering a select line of competition parts for P9/TZ pistols.**

**YOUR GUN IS ONLY AS GOOD AS ITS PARTS  
ALL PARTS MADE IN THE U.S.A.**

<b>Part #</b>	<b>Description</b>	<b>Price</b>
001	<b>Carbon Fiber Scope mount</b> — light weight — only 1.6 ounces including rings. Holds scope from the front tube. Lowest possible mounting, only 0.050" clearance. By weight, carbon fiber is 6 times stronger than steel. Possibly the lightest, strongest mount available today. Models for the P9/TZ and 1911 (1911 requires mount pad)	<b>\$ 182.00</b>
201	<b>Match Hammer</b> — single action only. Slot design for light weight, better lock time. Redesigned geometry. Half cock notch designed to protect sear tip	<b>\$ 77.00</b>
202	<b>Match Trigger</b> — single action only. Pre-travel & over-travel adjustment. Machined from aircraft aluminium then clear anodized for durability.	<b>\$ 60.00</b>
203	<b>Match Barrel</b> — 6" Bull Barrel, stainless steel, with fully supported chamber. Dimensioned to reduce hand fitting required during installation. Redesigned cam slot increases "in-battery" time for increased accuracy potential and less stress on gun. Available in 9x19 and 9x21	<b>\$ 266.00</b>
204	<b>Slide Stop Pin</b> — centreless ground from tool steel, then heat treated for durability.	<b>\$ 18.25</b>
205	<b>Firing Pin</b> — designed to eliminate misfires and provide consistent ignition. Sized to reduce primer flow. Machined from tool steel for durability but lighter than stock for improved lock time.	<b>\$ 35.00</b>
206	<b>Titanium Guide Rod</b> — light weight. Full length construction. One piece for durability and reliability. Almost 50% lighter than stock guide rod	<b>\$ 54.50</b>
101	<b>Competition Recoil Spring</b> — wound from premium chrome silicon wire not music wire. Heat treated, stress relieved and shot peened after winding. Developed for use in IPSC Competition. <i>Three times the life of music wire springs.</i> Specify 1911 or P9/TZ	<b>\$ 10.50</b>

Prices include 7% GST , but not Provincial Sales Tax or delivery.
